| | | | | |

***SCIENCE DETAILS OF ABOVE SESSIONS:**

| | |
|-------------------------------------|--|
| Monday 12 th February | BIOLOGY: Photosynthesis & respiration – The hormonal system of control vs the nervous actions – diffusion/active transport/osmosis – using magnifications to work out the size of a cell. |
| Tuesday 13 th February | CHEMISTRY: Structure of the atom and electronic structures – Ionic/covalent/metallic bonding (+ structures). |
| Wednesday 14 th February | PHYSICS: Parallel & series circuits – how to measure resistance in a circuit - Resistance trend graphs – resistance in metals (ions vs electrons). |
| Friday 16 th February | Reaction of acids with metals/carbonates/alkalis – strong/weak acid – electrolysis. |
