

9E4 Fundraises for PSPA

Sponsored run 12.25pm

Friday 11th November 2016

The North School all weather pitch

9E4's form topic for term 1 has been charities. The form has worked hard to organise two fundraising events for PSP (Progressive Supranuclear Palsy) which is a terminal brain disease and a charity close to their hearts. The disease progressively robs people of their ability to walk, talk, see and swallow, amongst other symptoms. Following the success of their bake sale which took place on Tuesday 18th October raising just over £50, the enthusiastic Year 9 students are doing a sponsored run tomorrow lunchtime on the all-weather pitch in school.

Thank you to everyone who has sponsored the children so far, there is still time to sponsor so do let us know if you want to be included and there will also be collection buckets at the run if you wish to donate. They have already raised well over £500 and their target is to get up to £600 if possible.

This run is about bringing people together and working as a collective group to raise awareness for the disease and help raise money for the charity. It will be great fun especially as both Miss Langston and Mr Hake are going to be running alongside the students. Please come along and show your support.

If you would like any more information please contact Miss Langston or 9E4.
